Tuesday Storm Leaves 12 Inches

A storm forecast to be between four to seven inches in depth left approximately a foot of snow in Bethel on Tuesday of this week.

Starting in the "wee" hours of the morning, the storm continued until late afternoon. Hazardous travel conditions existed throughout the storm.

FROM THE bethel town office

The Board of Assessors met Monday evening, Nov. 17, at the Town Office. One property owner met with the Board to review the valuation of his property. Considerable time was spent reviewing information to be used in next year's sales ratio study and the Board worked on routine items.

The Board of Selectmen will meet Monday evening, Nov. 24, at 7 o'clock in the Bethel Savings Bank meeting room. Besides routine items, other agenda items will include: consideration of a Veterans License for Susanne M. Burris d/b/a the Calico Corner Coffee Shop in West Bethel; discussions with Dr. Wayne Gersen regarding the proposed Drug/Alcohol abuse program at Telstar Regional High School, signing of a quit claim deed for the Bethel Water District, preliminary 1981 budget discussions and review of correspondence from M.D.O.T. regarding the Meadow Brook Bridge on the Flat Road.

Residents are reminded that overnight on-street parking is prohibited from Nov. 1 through April 1. Residents are requested to park off the street, if at all possible, during snow storms to help enable more efficient plowing operations. An effort is being made to keep costs down, however, when it is necessary to replot streets because of parked cars, it contributes to increased costs.

ATHLETIC DEPARTMENT TO SPONSOR CHEERING CLINIC

The Telstar Athletic Department will be sponsoring an NCA Cheerleading Clinic this Saturday at the High School gymnasium. All area cheering squads are invited to attend this clinic beginning at 8:30 on Nov. 22, at the gym.

RAILROAD RIGHT-OF-WAY FIRES SATURDAY AFTERNOON EXTINGUISHED QUICKLY

The Bethel Fire Department was called out early Saturday afternoon to extinguish fires along the right of way of the Grand Trunk Railway. The first report was called in by Mrs. Paula Cordwell for a blaze near her home on Robertson Hill. Subsequent investigation discovered a series of small fires along the tracks between Bethel and Gilsum, reportedly set by a passing train with a fuel leak. Quick-thinking and prompt reporting by Chris Cordwell, Mike McAllister and Danny Long who discovered the fire while playing outside at Cordwells, were credited for early detection of the fires, resulting in them being confined to relatively small areas.

VISIT POLLS

The students of Locke Mills School visited at the polls in Greenwood on Election Day, Nov. 4. They were greeted by Mrs. Phyllis Coolidge, Town Clerk, and observed the voting process as Mrs. Salway cast her vote Tuesday morning. At the school, the children held their own election at their polls. Shannon Cross was the ballot clerk, and each child cast a vote by secret ballot. Even though the results did not match that of the nation, the children were enthusiastic and proud to be Americans who can participate in such an activity. The results: Jimmy Carter, 16; Ronald Reagan, 15; John Anderson, 2.

Shown above, left to right: Crystal Chase, Jason Cross, Shannon Cross and Wade Corkum (voting).

cheduled to take place from Nov. 23 to Dec. 7.

The goal for this year's stewardship drive is to raise \$25,000 in pledges and to fill 60 vacancies in church offices, committees, choir and building support needs.

Last Sunday the first adult study session was held. The program is guided by Jim Chandler and this course looks at Latin America. The classes will be held each Sunday from 7-8 p.m. and anyone is invited to attend. The next session will look at North and South together, for better or for worse. Because of the Stewardship training scheduled for Nov. 16, the second adult study class will be held on Nov. 23.

Finally a week end without either rain or snow. The temperatures are cool and the wind has blown so the fires feel good. Have been doing most of my cooking on a woodstove which is good in one way as when one has to put in a stick of wood one looks into the pot to see if they need water. Do you suppose this has anything to do with Frank complaining that all my cooking is watery lately? Today, Frank and George shut off the outside faucet and cleaned out the garage so that we could drive the car in. During the summer it is much easier to leave the car out doors and the garage is the easiest place to put lawnmowers, step ladders, sawhorses and things in general we use during the summer. They have now gone to put on George's winter tires. Will we or will we not be having snow soon? One article I read said snow to stay on by Thanksgiving, another we would have snow about like last year. Time will tell. While they were working outside, I made popcorn balls inside. If you have boys overseas or friends, packages should be getting into the mails soon. Ira and Jim both called up Friday and said that they thought they could both make it for Christmas.

Tootsie Sciaraffa and Mr. and Mrs. Frank Benson went to the all-day Veterans Day observance in Locke Mills, Nov. 11, and Wednesday Sylvia and Tootsie went to Norway.

Saturday evening, Mr. and Mrs. Frank Benson, Anita and Chantel, visited her parents, Mr. and Mrs. Frank Benson, and Sunday Frank and Sylvia went to visit their other daughter the Ed Gardners in Sabattus. The two families went to the Chick-a-dee in Turner for Sunday supper.

A lot of hunters on the road but don't know of any deer being shot on this side of the river. Mr. and Mrs. Robert Howe moved into their home over the week end. It will seem funny to see someone living there as it has been years since anyone lived there full time.

Mrs. Evelyn Hilborn and Miss Ellen Tuck left for Toronto, Can., Nov. 1. While there Mrs. Hilborn visited her brother, Norman Davis, and cousins, Evelyn and Lucy. She arrived back Nov. 8.

Gerry Shimamura left Nov. 9 for Hampstead, N. H., to visit her uncle, Leland Bond and mother, Thelma Merrill. Monday they all visited relatives in Concord, N. H., and went shopping. Gerry came back Nov. 11. Jody stayed with his father and was in the Veterans Day Parade, Locke Mills, Tuesday morning.

Mrs. Rena Abbott, who passed away Wednesday, has a daughter, Alberta Angevine, grandson, Dick Angevine, granddaughter, Judy Coolidge, and a grandson, Lee Blake, who married Terry Lee Mason Blake. She has six great grandchildren also living on this road. Several from here attended the funeral, Saturday.

Mr. and Mrs. Danny Gibbs had the cement poured in their basement Monday. Keith Durgin helped his brother-in-law that day.

Mr. and Mrs. Dick Angevine, Kristy and Timmy, with Mr. and Mrs. Stan Moore and three children, had supper at the Chicken Coop, Saturday. This was to help celebrate Heidi Moore's eighth birthday, which was Nov. 11.

Sarah and Jessica Coolidge, daughters of Mr. and Mrs. Victor Coolidge, spent Friday evening and Saturday afternoon with Mr. and Mrs. Erlon Bean.

Dawn and Ryan Seames, children of Mr. and Mrs. Ricky Seames, spent Monday afternoon with Judy Coolidge and daughters.

Friday evening the Dick Angevines went to the Legion supper and program. Their daughter, She-

Mr. and Mrs. Dean Murphy, Chandra and Augusta, of Sebago, spent the week end with his parents, Mr. and Mrs. Frank Murphy.

Peter Levy and bride of two weeks, Deborah, of Santa Barbara, Calif., spent Thursday night with Dr. and Mrs. Leonard Shaw.

Leslie Lapham spent a couple of nights at Ben Gordon's camp on the mountain. Charles Mason, Jr., and friends were on a hunting vacation at the camp and had invited Mr. Lapham.

Mrs. Myrtle Lapham went to Dr. Royal's Wednesday and went in the hospital Friday for minor surgery on her face and came home the same day.

Thursday I had a stitchery party with the demonstrator, Lillian Conant. She showed us how to do stitch-a-stuff pictures, which many of us had never done. Attending were: Sue Angevine, Sue Moore, Brendi Newell, Elaine Moore, Margaret Buck, Evelyn Hilborn, Jo Monahan and Helen Kallis. After we had refreshments and Evelyn Hilborn had brought a package of Canadian tea and showed me how they brew it.

Friday, Sally Hannon, Elaine Hutchins, Gerry Shimamura went to Ann Roy's on Mt. Abram road to a book party. The demonstrator gave mini reports on some of his books. Afterwards refreshments were served.

The anchor ice was around the edges of the river this morning. A sure sign of winter.

Sounds of Thanksgiving

P. F. Freeman

It's nice to ride o'er familiar roads And hear the sleigh bells ring. To enjoy the many, many blessings A Thanksgiving has to bring.

There is much to be thankful for—Joy seems to have no bounds; It is a pleasure just to know Thanksgiving Day has rolled around.

Memories soon are brought to mind As kind folks gather by the fireside—

There are many things to talk about Which fleeting time could never hide.

While the snow in silence falls To the cold and barren ground, Frosty windows are a reminder that Thanksgiving Day has rolled around.

There is laughter, there is song, And there's happiness everywhere, While from the hills and mountain tops,

Winds of autumn glad tidings bear. 'Tis the season when loved ones mingle To feast, to pray, and thanks propound.

For kindred folks are joyful that Thanksgiving Day has rolled around.

Edith Hathaway and Beatrice Farnum won with 14 words. GIRL SCOUT TROOP #333,

ANDOVER, ENJOYING BUSY SCHEDULE THIS FALL

Girl Scout Troop #333 of Andover has enjoyed a busy schedule so far this year. The Cadette level troop is for girls in the 7th-9th grades and is sponsored by Dave's General Store of Andover.

Activities that have been enjoyed so far include a day hike up the Appalachian Trail to Baldpate Mountain in late summer and a three day camping trip in October.

The camping trip enabled the girls to work towards a camp craft badge.

Some of the girls attended a wider opportunity day held at Camp Pondicherry in Bridgton at which several Girl Scouts from the Kennebec Council were present to share stories of their experiences the past summer. After filling-out forms and attending interviews, these Scouts were chosen to participate in events ranging from horseback riding at the Girl Scout National Center West in Wyoming to cliff climbing and exploring caves in Virginia. It is hoped that some of the local Cadettes will apply for future opportunities.

The Scouts served as waitresses at the annual birthday supper in Andover, and most recently provided the entertainment at a Halloween Party for Brownie Scouts.

Future plans include making Christmas tree decorations and Christmas caroling in Andover.

The girls are also planning a fund-raising drive selling pens prior to the holidays. They would appreciate everyone's generous support with their drive. Proceeds are to be used to purchase camping equipment.

Members of the Troop include: Allison Belanger, Rachel Belanger, Martha Bell, Kim Deans, Emily Gammon, Tammy Holmes, Jennifer Hutchins, Shelly Hutchins, Carol MacDougall and Lisa Wuori. Troop leader is Ellen Greeke of Andover.

Test entitling them to official membership and a uniform are: Angela Sawyer, Holly Roberts, Michele Johnson, Michelle Campbell, Jenny Martin, Beth Sawyer, Mary Fraser, and Michelle Barker. Those receiving rank of Papoose are: Angela Sawyer, Holly Roberts, and Michele Johnson.

Pioneers completing the Covered Wagon Test entitling them to official membership and a uniform are: Eric Johnson, Dana Dyke, Eric Hoyt, and Reggie Westleigh.

Sunday River

Jeannine Fleet, Corres.

Mrs. Julie Daye and Sharon attended a Muscular Dystrophy Telethon Award Banquet and meeting in Portland Sunday.

Julie Daye was one of the lucky deer hunters this week.

There have been several deer shot and taken out to tag.

A lot of the deer hunters have been reporting that they are seeing a lot of bear and bear signs.

Marshall Fleet and Frankie Harrington went to Rangeley hunting Saturday and reported seeing a lot of moose sign.

The telephone repair man was in town fixing phones that aren't working very well. Hope they will be better.

Sent in by Eva Yates:

Darnita Yates was home overnight Thursday from her work in Sanford. She visited Gram Yates and Uncle Joe Thursday P. M., and again Friday P. M., when she was on her way to Barre, Vt., to spend the night with an old friend—then back to Sanford on Saturday.

Dr. Albert Ring and friend from Vermont called on Joe and Eva Monday. They were in town for a little hunting. We haven't heard of too many deer being taken. I

think the coyotes are taking care of far too many of our deer population.

Durte Becker visited Eva and Joe Yates Tuesday P. M.

A phone call from Peggy Blake Tuesday night said they had arrived in Florida all O. K. and it was raining. Another phone call Saturday said "Not much sunshine yet!"

A magnificent Monday morning—our third nice sunny day—don't it scare ya? Yes it's cold but we are on the last half of November and some years we have had snow now. Cheer up it will come too soon.

I see we have a new correspondent—welcome. Now we can have real Sunday River news not just the Swan's Corner bits.

The old Go-Shoes got an airing this past Saturday. Daughter Laura phoned—are you going to be at home? A short time later that red car drove in—with Laura and Lucy and Miranda. They stayed for dinner and said they were going shopping in Gorham and would I care to go? Those Go-Shoes came off the hook and were warmed up in one short space of time—and were going all afternoon till 4 p. m. A good time and a good visit. The bright Christmas glitter and pretty colors kept Miss Miranda entertained all the afternoon—no nap for her.

Durte Becker visited Eva and Joe Yates Tuesday P. M.

A phone call from Peggy Blake Tuesday night said they had arrived in Florida all O. K. and it was raining. Another phone call Saturday said "Not much sunshine yet!"

A magnificent Monday morning—our third nice sunny day—don't it scare ya? Yes it's cold but we are on the last half of November and some years we have had snow now. Cheer up it will come too soon.

I see we have a new correspondent—welcome. Now we can have real Sunday River news not just the Swan's Corner bits.

The old Go-Shoes got an airing this past Saturday. Daughter Laura phoned—are you going to be at home? A short time later that car drove in—with Laura and Lucy and Miranda. They stayed for dinner and said they were going shopping in Gorham and would I care to go? Those Go-Shoes came off the hook and were warmed up in one short space of time—and were going all afternoon till 4 p. m. A good time and a good visit. The bright Christmas glitter and pretty colors kept Miss Miranda entertained all the afternoon—no nap for her.

JOB PLACEMENT OFFICE AT TELSTAR HIGH SCHOOL

Maizlyn Howe, left, Guidance Department secretary, is discussing job opportunities with student Bobby Myers in the new job placement office, which opened this fall at Telstar Regional High School.

This state funded program is designed to assist students, recent graduates, and early leavers in finding full and part time jobs. This job placement service is being offered as an extension of the educational process and is based on the belief that the training and experience gained in a working situation can be most productive in preparing today's students for future careers and community life.

In addition to finding jobs, stu-

dents have the opportunity to acquire job seeking skills, job hunting techniques, and the techniques required to hold a job through a "life directions" unit taught at the high school.

The job bank is located at the Telstar High School guidance office. Office hours are from 7:30 a. m. to 3:00 p. m., Monday through Friday. If this service can be of any help to you, please drop in or call 824-2136.

SENATOR WILLIAM COHEN

From Washington

Maine's weatherization assistance program for elderly and low-income residents is at a crucial stage. State officials have expressed the hope that all remaining homes eligible for repair—nearly 40,000—can be completed by the end of 1983. This is a realistic goal, but not an easily attainable one. The Department of Energy must assure Maine, as well as other states that funds will continue to flow freely.

I fully support the continued funding of this important conservation program. Studies have shown that it is possible to decrease energy use in the U. S. by 20% simply by using straightforward conservation methods. Without conservation, particularly energy efficient repairs around the home, millions of barrels of oil will be carelessly consumed.

The Northeast-Midwest Institute estimates that home weatherization can cut household fuel consumption by 30%. For low income families or those on fixed incomes, this would mean that more money would be available to devote to other necessities. It also would permit the government to reduce its energy assistance payments. In home weatherization, we have a government program that pays dividends in many ways. Scarce oil is conserved, individuals gain a greater sense of independence because of budget savings, and ever increasing government payments are reduced.

In Maine 17,000 homes have been weatherized statewide. The state has already received \$6 million for continued work through 1981. However, to reach the pace of work necessary to complete work on the 40,000 remaining homes by 1983, Maine requires twice that amount. Although the expenditure remains high, I believe the benefits are well worth the investment.

While the level of home repair has increased to about 600 residences a month, at least 1,200 homes would have to be completed each month to finish the work by 1983.

Maine officials also made a significant and unique policy decision when the repair jobs were extended to private contractors in the state. Many states depend solely on CETA workers to carry out the home repairs. By including private contractors in the program the economic vitality of the construction industry has been strengthened. The Maine program hopes to use up to 50 contractors statewide as the program continues.

In addition, Maine has initiated a self-help program. Materials can be supplied to the homeowner, who can complete the work himself if he wishes, or he can receive on the job training in completing the work at his home. It is this kind of initiative that makes a program responsive to both the needs of individuals and the local economy. Maine's weatherization program continues to be a model for other states to emulate. I intend to watch very closely the progress of this program through 1981.

BETHEL WATER DISTRICT QUESTIONS/ANSWERS

The Bethel Water District held a special meeting on Nov. 3 at the Bethel Savings Bank. An article was in the Citizen last week concerning the questions brought up at the meeting. Following are other questions that were not answered last week.

(1) Do you look to the future when you plan a water main extension or other water related work?

Yes, the materials used are in accordance with the standards of the American Water Works Association and are of a quality that will assure their use for many years to come.

Whenever a main extension is considered, future development as well as the potential for fire protection are used as a factor in sizing the main.

Next year the Water District will replace two of the older hydrants with new ones; a new water main is planned for West Bethel to replace a line that frequently breaks. The new line will be 8" Ductile Iron and will meet present as well as future demands. These are a few of the projects to be done in conjunction with the on-going preventive maintenance and upgrade programs.

(2) What is the increase in postage to have separate water bills?

The increase in postage is \$120 a year.

(3) Why was it necessary to relocate the fire hydrant on Main St.?

The hydrant was moved back 7' to facilitate the sidewalk relocation and drain project done by the town. At the time this project was done the District installed a 1980 hydrant which meets proper insurance standards.

(4) What can be done to keep the water rates down?

Conserve. The average family should use about 1,200 cu. ft. (9,000 gallons) of water/quarter or about 100 cu. ft. (750 gallons) of water/week. If you use more than this amount there may be a leak in the plumbing of your house, such as a leaking faucet or toilet. A 1/16 of an inch leak will amount to 9,460 cu. ft. of water wasted, but that will add to your water bill. Water District personnel will be glad to inspect your home for possible leaks.

Unfortunately, there are costs factors beyond the control of individual customers.

The Bethel Water District is in a situation where it has historic debt which must be paid back, current demands and main maintenance, state and federal regulations and capital work which must be done. The system is old. Most of the main lines have been in service since 1890 or the early 1900's. All of this in conjunction with inflation makes it impossible to stop or reverse the increasing expenses of the Water District.

(5) Is it cheaper to be on a private well or on-town water?

The cost of an artesian well, pump, maintenance (replacement of some parts), and electricity most likely will exceed the \$80.00/year the average Water District customer pays.

The cost of a "dug well", pump

KAILEY IS AVIS CHALLENGE CUP WINNER AT BETHEL INN

The Bethel Inn and Country Club recently completed Avis Club Challenge Cup tennis competition with the following champion: Paul Kailey, Men's Singles.

Mr. Kailey emerged as a winner over a group of eight competitors in each category of Avis competition in a program conducted nationally and in Canada. The Avis Challenge Cup was presented in cooperation with the American Express Card and Tennis Magazine.

Overall, approximately 800 tennis and country clubs conducted Avis Club Challenge Cup Tournaments, with more than 1,500 champions receiving plaques. The program was in its fifth year. Tennis Magazine soon will publish the names of the champions.

STATE POLICE URGE CAUTION IN THANKSGIVING DRIVING

Motorists are urged by the state police to be extra responsible during the forthcoming holiday week end.

"Throughout the Thanksgiving week end period, Troopers will be especially alert for drinking motorists who can spoil the holiday happiness for all of us," said Colonel Allan H. Weeks, Chief of the Maine State Police.

Motorists are advised to remember if they are not in condition to drive to let someone else drive or take them home.

"On any trip—however long or short—it's important also for motorists to allow for possible snowy weather, icy roads and other drivers' mistakes," the state police chief said.

With increased traffic, possible inclement weather and people who may (but should not) drink and drive during the Thanksgiving holiday period, motorists are asked to use extra caution and common sense when driving so they—and those with whom they share the road—will have an accident free holiday.

(replacement of some parts), and electricity is probably cheaper after the first 10 years of operation when installation costs have been paid.

There are advantages to being on town water. For example: 24 hour service, water quality inspected by the Department of Human Services as well as District personnel, fire protection which affords the customer a savings in their fire insurance rates (about \$30.00 per year for a \$30,000 home).

The Week in Washington

by Sen. George J. Mitchell

Now that the heating season is upon us, Maine citizens will be seeking ways to meet rising home heating costs and to conserve heating fuel.

In recent years the Congress has enacted a number of programs to help those faced with increased heating costs. For Maine's elderly and low income families, a fuel assistance program and a weatherization program have been developed. For middle-income Americans, the federal tax law has been changed to encourage energy conservation.

The low income fuel assistance program is designed to help retirees living on fixed incomes and families whose excessive fuel bills may force them to choose between heating and eating. The Maine Community Services Administration estimates that about 70,000 families will be served under this year's program. To determine if you are eligible for assistance and for further information you may contact the Crisis Assistance Agency at this toll-free number: 1-800-452-4617.

The Community Services Administration also has received grants from the Department of Energy to help low-income families weatherize their homes. This program is particularly helpful because it aids families by reducing their home heating needs over the long term, rather than assisting with one season's heating bill. Presently, there are 40,000 households eligible for the weatherization program in Maine. The Community Services Administration hopes to weatherize approximately 1200 of these homes

per month. In fact, the program's goal over the next three years is to weatherize enough homes so that the program is no longer needed.

To find out more about this program contact Community Action at this toll free number: 1-800-452-1987.

Middle-income Americans may want to take advantage of recent changes in the federal tax law designed to encourage energy conservation expenditures. For instance, the Energy Tax Act of 1978 permits tax credits for investment in energy conservation devices including: insulation; furnace efficiency improvements; clock thermostats; storm windows and doors; caulking and weatherstripping.

If you would like more information on energy tax credits, call your local I. R. S. office and order a free copy of the I. R. S. publication #903, Energy Credits.

I am proud of the example the people of Maine have set for conserving energy. As many of you know, even simple conservation steps can result in substantial energy savings. For instance heat loss through doors and windows can be reduced by caulking and weatherstripping at a cost of only \$25 for the average house. By insulating your house, heating costs can be reduced by as much as 20 to 30%. The President's Clearing House for Community Energy Efficiency can provide additional information on energy conservation at this toll-free number: 1-800-424-9040.

METHODIST CHURCH HOLDS ANNUAL MEETING

The Annual Charge Conference of the Bethel United Methodist Church was held on Monday evening, Nov. 17, with Rev. Lynne Josselyn District Superintendent, as special guest. A pot luck supper preceded the meeting.

Reports of church activities for the last year and of the nominating committee were received. Rev. Millett Cummings expressed appreciation to members and friends of the church for their co-operation and support throughout the year. He reported substantial growth in Church and Sunday School attendance, announced that a Bible Study Group is meeting at the church each Tuesday morning, and expressed the congregation's pride in the excellent choir and organ under the direction of Edna York and organist Susan Glines. Also thanked were the members of the United Methodist Women, for their contributions of time, talent, and treasure in the ongoing work of the church. Their earnings are all used for the budget of the church, for the District Conference, national and worldwide work of the United Methodist Women.

Recent repairs and painting have been done at the church and parsonage, and in anticipation of further maintenance expense, the church has applied an Old Testament story of King Joash to modern needs: King Joash restored the Temple by receiving contributions in a special chest. Thanks to Ernest Perkins, the church now has a "Joash Chest". All funds placed in this chest will be used for necessary building repairs.

A letter was read from former Lay Leader, Randall Chretien, who is studying at Bangor Theological Seminary. Randy will be conducting a special Thanksgiving Eve service at the church on Wednesday, Nov. 26, at 7 o'clock.

Immediate future plans, as outlined by the pastor, include finding leadership for a youth fellowship group, organization of a men's club and an every member visitation as an evangelical outreach. Visits not to raise funds, but to let people know they are cared for through Christian love.

CHRISTIAN SCIENCE COMMITTEE ON PUBLICATION HOLDS AUGUSTA CONFERENCE

On Saturday, Nov. 15, the Christian Science Committee on Publication held a conference of Assistant Committee from all over the state of Maine. The meeting and a mid day luncheon were held at the Augusta campus of the University of Maine. The theme of the conference, "Daily Inspiration for a Portion of II Corinthians," was based on a portion of II Corinthians 12:13. Included were Bible readings, selections from the writings of Mary Baker Eddy and a general discussion concerning communications with the news media. Attendees from Bethel were Mr. and Mrs. David Thompson, who enjoyed the trip and meeting and their first visit to the U. of M. at Augusta.

several private individuals and
officials of the Town of Sandwich
have made attempts to preserve
portions of the Notch over the
years, but the current effort began
in 1971 when a private corporation
contemplated selling the land in
the notch for development pur-
poses.

The Society for the Protection of
New Hampshire Forests was the
catalyst in the current protection
efforts. Paul Bofinger, President of
the Society, noted, "There has been
a great deal of support for this ac-
quisition effort by many individ-
uals and organizations, especially
in the Town of Sandwich. Without
their support and encouragement,

this acquisition would not have
happened."

Sandwich Notch Road was
constructed in 1801 and served a
population of over 200 people who
lived along the road until 1930.
The road has been maintained by
the Town of Sandwich since its
beginning and will remain a pub-
lic road after Forest Service ac-
quisition.

INTERVIEW - The following is
a summary of an interview done
earlier this fall by Stephanie Han-
son, a student at Telstar Middle
School, to fulfill an assignment in
a seventh grade Maine History
class, taught by Peter Brown.

What is your title? Are you a
boss, a foreman or what? He is
the mill manager. What does your
job mean? He is in full charge
other than the owners. What time
does the mill start? 6:30 a. m.
What are your duties? They are
to instruct, advise and supervise.
How many are employed at P. H.
Chadbourne? 35 in the mill divi-
sion. What do you do with your
lumber after you're done with it.
It's sold through brokers to the
construction industry. What are
the types of jobs at the mill? There
are laborers, mechanic operators,
vehicle drivers, machinists, weld-
ers and electricians. Would you
give me a brief description from
start to finish of the saw and plan-
er mill? They buy the logs. They
are brought to the mill where they
are stored, then taken to the de-
barker where the bark is removed,
then taken to the saw mill where
they are broken into boards, then
they are taken to the stacking area
to dry, then they are planed and
packaged for truck shipment. Ex-
plain why you have 3 dry kilns
and what do they do? So they can
dry the wood faster and there
won't be such a large yard inven-

tory. What is the boiler. It is a
large machine that has wood waste
put into a machine and burnt.
What does the boiler do? It dries
the wood and heats the buildings.
Do you need 3 dry kilns for more
production? No, they are for con-
trolled humidity? What is the pro-
duct you make most of your mon-
ey on. Lumber. Why do you keep
your shavings? Because they sell
them to Wilner's wood products for
wood flour and paper. What do
you do with the mill products that
are rejects? They sell them to in-
dividuals at retail prices. Why do
you sell rejects? Mostly to get rid
of them. How many hours does
the mill run? 10 hours a day, 40
hours a week. Why do you have
so much machinery? For more
production (it is faster). What is
your newest piece of machinery?
The chipper. What does it do? It
makes wood chips for the paper
industry. Why do you sharpen the
saws? Because they get dull. What
do you use to sharpen them? Au-
tomatic grinders. How long does it
take? About 15 minutes. Do you
think that is long? No, it is 75%
of the legal time they are allow-
ed. They have 25 minutes to change
the saw. Do you enjoy your job?
Yes. (Chadbourne's actually has
no waste products).

Greenwood City

— Mrs. Colista Morgan, Corres. —

As I write this, sky, mountains and pond are quieted into deeper shades of blue. The air is still. All is serene and harmonious. There's a mull over everything that has happened. Once again the day is blending with the future night.

It is now a between season. Frost glistens in the morning, as the sun's slanting rays shine from the east. Pearl gray smoke climbs upward from the chimneys and drifts away to nothingness. This eleventh month reveals many secrets. The foliage is gone so there appears the orioles nest swinging like a gray mitten from a pendant branch. Just up the road. They feasted on my oranges last summer, then flew away and I never discovered where.

Goldenrod and wild asters are grayed and flattened. Hills across the valley seem closer and more distinct. Bare trees are like etchings. Ice sheets temporarily shine along the pond's edge. Stone walls are more prominent. The river winds like a gleaming silver thread between its banks.

AND it's hunting season so I do not go "woods prowling" or hiking.

So autumn creeps past and the hush of winter approaches. Stars sit on the hilltops or become a part of the pond walking a waving ripple in the wind.

"These brilliant days that lift our spirits skyward. Have filled our souls and taught our hearts to sing. For as the earth rests from her beautiful labors. We'll wait with her for the return of spring."

NEWS FROM S. A. D. 44 ADULT & COMMUNITY EDUCATION

The fall term of Adult and Community Education in SAD 44 is fast coming to an end. With a number of classes completed and others planning special closing activities. The two cooking classes, Foods Lab and Italian Cuisine, will combine forces for a banquet to be held at the home of Nina Welford in West Bethel. Within this spirit of cooperation, some competition between the two classes in culinary excellence is sure to take place.

Adult and Community Education Director Cathy Newell took on a different role on Wednesday, Nov. 12, teaching a special class in basketry for the students in the Chair Seating course of Floribel and Agnes Haines. Using flat reed, the students completed a berry basket during the evening, and Mrs. Newell was able to experience adult education from a different perspective. The students in the Chair Seating class will display their exceptionally fine work at the Adult and Community Education Night on Dec. 9 at the Telstar Cafeteria, during and following the pot luck supper.

Courses have just started in Astronomy and Yoga, with additional students welcome in both courses. The Astronomy class began on Nov. 13 to run for seven weeks, plus a field trip to the Planetarium at USM. The Planetarium trip will be open to the public, with details to be announced later. Linda Blake's Yoga class was postponed from an earlier starting date, and has met twice on Tuesday evenings at Telstar. The course provides an excellent opportunity for physical shape-up and relaxation during the hectic holiday season. If interested in either class, call 824-2136.

Class of the week designation this week goes to the Parent Support Group, under the direction of S. A. D. #44's Home-School Coordinator Dave Walton. This group of parents meets on Monday evenings at the Casco Bank in Bethel and through a combination of sharing experiences, discussions and study encourages the development of parenting skills. The classes are co-facilitated by Walton and his wife, Marianne. The fall session of the Parent Support Group will conclude on Nov. 24, with a new group set to begin on Dec. 8 for a 10-week class. Anyone who is interested in participating in the Parent Support Group should contact the Adult Ed. Office 824-2136, or Dave Walton at the Middle School, 824-2582. Adult High School diploma credit is available for participation in the Parent Support Group.

Mrs. Edith Bryant and daughter, June Cushman, Winthrop, were in town Wednesday, visiting friends and relatives. They took supper with me before returning home.

The Willing Workers held their Hunter's Supper Tuesday evening Nov. 11. The building was crowded. Many compliments were received for the meal. The committees are to be congratulated for their fine work. Mary Flemming had a lovely sale table which was patronized during the evening. Many thanks go to Buster Poland for building our fires for us. Thanks to all who cooked for the supper.

Elaine Kesaris and daughter, Karen spent the day Wednesday with her parents, Mr. and Mrs. Taisto Koskela. They also attended the Willing Workers supper at the Union Church building in the evening.

There are many hunters in town at this time.

Olive Davis was in Lewiston with Lettie Brooks Thursday.

Words can never express my thanks to my friends, neighbors, and relatives for visits, telephone calls, cards and letters of encouragement and understanding during my stay at Maine Medical Center and since my return home. A special thank you to my neighbor, Rose Smith, who so often brought food and to my husband who spent much time with me. I shall never forget that the kindness of all helped so much. Thank you.

AMERICAN LEGION OBSERVES VETERANS NIGHT—Among those attending the Mundt-Allen #81 Post and Unit Veterans Night supper and meeting Friday, Nov. 14, were, above seated left to right: Zena Keyes, 2nd District President; Donna Light, Department President; Ramona Lowe, President Unit

BOOKMOBILE SCHEDULE
The Harrison Area Bookmobile will make the following stops on Nov. 24: Newry—Bear River Cabins 9:15-9:45; Willard Wright's residence 10:00-10:30; Norman Davis' residence 10:45-11:00; West Bethel—Mitchell's Store 3:10-4:15.

WALKING WITH JESUS CHRIST
"The Lord reigneth; let the earth rejoice; let the multitude of isles be glad thereof!"—"The heavens declare his righteousness, and all peoples see his glory." Ps. 97-1, 6.

The people say "stunning" as they examine the photos of Saturn. "And God said, let us make man in our image" Gen. 1:26. A NASA scientist said "now maybe we will learn how man originated."

In the beginning God created the heaven and the earth" Gen. 1:1. —And last month two American scientists were awarded Nobel prizes for their "Big Bang" theory—that the Universe was made by a big explosion.

"Zion heard, and was glad; and the daughters of Judah rejoiced because of thy judgements, O Lord" Ps. 97:8—and this week the highest judicial body—the U. S. Supreme Court outlawed the displaying of the ten commandments in public schools.

"For thou, oh Lord, art high above all the earth, thou art exalted far above all gods" Ps. 97:9. And this week the State of Maine is thinking of horse race betting to raise money.

"Confound be all those who serve carved images, who boast themselves of idols, worship him, all ye gods." Ps. 97:7.

Can it be man makes gods of himself — and thereby rejects Christ as Lord? "Whosoever therefore shall be ashamed of me and of my words in this adulterous and sinful generation, of him also shall the Son of man be ashamed, when he cometh in the glory of his Father, with the holy angels." Mark 8:38.

A Psalm of David, 51 — "Have mercy upon me, O God, according to thy loving kindness; according unto the multitude of thy tender mercies blot out my transgressions." "Wash me thoroughly from mine iniquity, and cleanse me from my sin." "For I acknowledge my transgressions, and my sin is ever before me."

I John 1:9, 10: "If we confess our sins, he is faithful and just to forgive us our sins, and to cleanse us from all unrighteousness." "If we say we have not sinned, we make him a liar, and his word is not in us."

JACKSON-SILVER POST OBSERVES VETERANS DAY ON TUESDAY, NOV. 11

The cold north winds and temperatures may have dropped the thermometers, but surely didn't drop the spirits and enthusiasm of the Locke Mills Veterans Day parade. The parade left the new hall on the Gore Road in Locke Mills, led by Post Commander Eldon Bartlett and Past Commander Cleveland Lovejoy, followed by the color guard (1st Vice Commander Charles Mason, Ken Hoyt, Ronald Smith and Terry Clukey), the Telstar Regional High School marching Band under the direction of Jerry Hefley, then the Post firing squad (Richard Melville, Ken Wakefield, Ellsworth Hathaway, Roy Day) under the direction of the firing squad commander, Harry Swan. They were followed by three car loads of World War I, World War II, World War I Barracks and Auxiliary and members of several other veteran organizations. As the parade proceeded along the Gore Road, Main Street to the monument, dozens of people lined the street supporting the parade, and paying respect to the veterans.

At the monument, Past Post Commander Alanson Cummings, Post Chaplain, offered prayer as all stood with heads bowed, then Past Commander Eldon Bartlett escorted Department of Maine Auxiliary Past President Fannie Cummings to the monument where a wreath was laid. The band played "The Star Spangled Banner" as all stood smartly at attention, followed by the firing squad giving a 21 gun salute with taps. The parade then proceeded back along Gore Road, Main Street and out the Gore Road to the Legion Hall where it disbanded.

Inside, the group while awaiting dinner, stood in a moment of prayer as Department of Maine Auxiliary Chaplain Jeri Brooks of Bethel offered prayer, and special moment of silence for the American hostages in Iran.

Post Commander Eldon Bartlett greeted all, then presented Past Post Commander, Charter and Life Member Alanson Cummings the silver jubilee award from the National Commander of the American Legion for 61 consecutive years of membership in the American Legion.

Post Commander Bartlett made a few remarks, and introduced the guest speaker, Past Department of Maine Vice Commander and presently Veterans Administration Legion Officer Chester Worthington, who gave a very touching and moving speech. Then all enjoyed a fried clam dinner, followed by a game party.

The day was a great success for all. The Legion Post in Locke Mills is one of the few in southwestern Maine that has a parade, and formal activities on Veterans Day.

For a change of pace, the menu will consist of meat loaf, mashed potato, squash, cole slaw, pie and beverage. This is sponsored by the Fire Department Auxiliary.

CAUTION URGED FOR HOLIDAY TRAVELERS

"Thanksgiving this year means all of the traditional events taking place," Maine Highway Safety Committee Chairman Lee Allen said, "and that includes drunk and drinking drivers on the road in larger numbers. With families and friends getting together traffic will be heavier than normal, increasing the chances that those alcohol-impaired drivers will collide with someone else," she warned, "probably causing injuries and death to themselves and/or others."

"Put some extra attention on your defensive driving over the holiday," Ms. Allen continued, "and allow extra time when traveling in case of unexpected problems."

"And," she concluded, "whether you're hosting or attending a holiday party, do your best to insure that those who drink too much, or too fast, don't get behind a wheel to drive."

SOLDIER ON SPECIAL ASSIGNMENT—Private Richard D. Chase, son of Mr. and Mrs. John Chase of Locke Mills, has been selected for special temporary duty as a recruiter aide at the U. S. Army Recruiting Station, 138 Congress Street, Rumford.

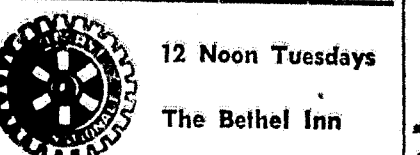

Chase, a 1979 graduate of Telstar Regional High School, completed Basic and Advanced Individual Training at Fort Benning, Ga., as a Tow Gunner Crewman. Following his temporary duty, he will be assigned to the 101st Airborne, Fort Campbell, Ky.

As a recruiter aide, Private Chase will spend 30 days visiting with former classmates and peers, talking about his personal Army experiences, and answering questions from interested persons. He can be reached at the Rumford Recruiting Station—364-7511.

GOULD'S PREMIER RUNNER

Matt Isham, son of Mr. and Mrs. Donald Isham of Albany, was recently honored at Gould Academy's annual fall sports banquet and awards night. One of the top cross country runners in the state, Matt consistently placed 1st or 2nd in all races in which he competed in Maine. During this time, he set several course records and finished second only one one-hundredth of a second from first place in the New England Class C Independent School Meet held in Bath. Most recently, Isham placed ninth out of 90 runners in the Independent School Classes A, B and C Meet held at Lawrence Academy in Groton, Mass. He had the best time of all Maine runners in this meet, competing against many schools with enrollments of 1,000 students or more. A senior, Matt is spending his second year at Gould.
